		25X1				
1.		the A-Blocks 25X1				
	at Droegeheide quartered about 500 men with blue-border	ed black epaulets.				
	the B-Flocks about 1,000 men with black and yellow-bord and the C-Blocks about 1,200 men with red epaulets. The	installation was				
	occupied to about two thirds of its quartering capacity area was being surrounded with a brick wall about 2 met	. The billeting				
	front of this wall was already completed. A culture how	se was under				
	construction in the area of the A-Blocks. In the motor the floor was being concreted. The officers' billets we	ere about 70 percent				
	occupied. Officers dependents moved into the houses alm No 7, 8, 9, 25, 26 and 27 were occupied by Soviet office	ost daily. Houses				
	to the area of the A-Blocks guards had been posted since	e recently. They				
	checked the identity cards of every soldier and civilia many soldiers whose uniforms were not up to strict mili	tome atondanda to				
	return to their billets. this meas	sure was taken with 25X1				
	a view to improving military discipline. 1					
2.	Only light training activity was observed. Details of s	soldiers who carried				
	entrenching tools were repeatedly seen leaving the bill Athletic activities were observed every afternoon in fa	ir weather. On the				
	afternoon of 25 November, 3 T-34/85 tanks left the tank	parking site for				
	the area surrounding the installation. A Soviet officer the tanks.	3 battery commander's				
	telescopes, 3 tables with field glasses, rubber boots a	and a pneumatic boat				
	in front of one of the buildings of the C-Blocks. About a unit of 400 men marching behind a mil

Compont The evieto	nee of a model land	m-47 heavy machine gu	n to marked	10.5
for the first time. So far	Soviet and Satelli	te army units had bee	n reported	·25A
as using a model Maxim-191	C and a model Gorve	mov-43 heavy machine	sun.	
The Soviet Occupation Forc	es in Germany are e	quipped with a model	Gorvunov-43	
heavy machine gun, while t	he Satellite armies	nostly use the obsol	escent	
model l'axim-1910 heavy mac	hine gun.	XV	F units	
recently also been partly	equipped with the m	odel Coryunov-43 heav	y machine	25)
gun. This machine gun and	the Soviet model-46	light mackine gun do	net reach	
the rate of fire of the for	rmer German model -4	2 machine gun. It app	ear, s	
improbable that a new weap	on like the alleged	rodel Paxin-47 heavy	rachine	
gun should be observed wit	n a KVP unit sooner	than with the Soviet	Occupation	
101005				
Comment. It is surv	rising that the uni	ts of TV 12 which hav	ne heen 25)	K 1
brought to about 75 percen				
received many new recruits	. To date it has be	en believed that pric	rity	
was given in the assignmen	t of new personnel	to units of TV 24 and	of To	
Fechanized Pereitschaft For	tsdan which have re	ached only 55 percent	respectively	r
67 percent of their author	ized strength. The	strength figures		25)
are exaggerated. See also	Corment 1 abo	ve.		20/
